

Airuite Q6G Pure Electric Flushing Vehicle

Pure electric flushing vehicle for sidewalks, non-motorized lanes, alleys and community spaces. Front row flusher and rear high-pressure spray gun with an 800 L water tank.

Highlights

- High-pressure flushing up to 25 MPa
- 800 L water tank
- Front row + side flush + hand gun
- >8 h operating time

Technical parameters

Cleaning width	1.2 m flush width
Bin / tank capacity	800 L water
Battery	LiFePO4 76.8 V / 300 Ah (23 kWh)
Operating time	>8 h
Operation	Operator-driven
Max speed	22 km/h
Overall dimensions (L × W × H)	3850 × 1200 × 1880 mm
Gross weight	1860 kg
Curb weight	1100 kg
Voltage / rated drive power	72 V / 5 kW
Water pump rated power	7.5 kW
Water pump pressure & flow	25 MPa / 15 L/min
